Pioneer in Medical Professional Skincare I'LL Global

I'LL Global took the first step in 2004 to deliver the best skincare solutions and services in the skincare industry. Since then, as a pioneer in medical professional skincare, I'LL GLOBAL has been highly recognized by dermatologists, plastic surgeons in the Republic of Korea and medispas, and other skin care specialists around the world.

History

- Published journal in ANTIOXIDANTS about ECMV Booster RA **2023**
- Title : The Extracellular Matrix Vitalizer RA™ Increased Skin Elasticity by Modulating Mitochondrial Function in Aged Animal Skin
- Acquired ISO 22716 **2022**
- Published two journals in MOLECULES about ECMV Booster BR
- Title : A Mixture of Topical Forms of PVN Attenuated Skin Pigmentation and Increased Skin Elasticity by Modulating NRF2 (Nuclear Factor Erythroid 2-like2)
- Title : The Combination of Niacinamide, Vitamin C, and PDRN Mitigates Melanogenesis by Modulating Nicotinamide Nucleotide Transhydrogenase
- Launched Aqualgin Masque
- Launched DNA PEEL **2021**
- Acquired ISO 9001;2015 **2019**
- Started exporting tHermoCEUTICAL to Russia
- Acquired 2 patents
- Yeast-fermented solution and recipe of anti-inflammatory herb extracts- Composition for acne treatment, including herbal extracts fermented with yeast
- Started exporting tHermoCEUTICAL to the United States **2017**
- Started exporting tHermoCEUTICAL to China **2016**
- Acquired Government R&D project about raw material development **2015**
- Accredited by the government (Korea Industrial Technology Association – koita) as a Corporate R&D center **2014**
- Founded R&D center at Dankook university **2013**
- Concluded family company relationship with Dankook university **2012**
- Published a paper in USA journal (The Science of Dermatological) about effect of FCR
- Title : Combination peel with incorporated fractional prickle coral calcium for the treatment of keratosis pilaris
- Launched tHermoCEUTICAL correctors line **2011**
- Started exporting FCR, tHermoCEUTICAL to Japan and Asia
- Launched FCR (Fractionalprickle Coralcalcium Regentron **2009**
- Launched tHermoCEUTICAL BB Contour & Ampoule Line **2007**
- Established I'LL GLOBAL Co., Ltd. **2004**

Skincare Solution, **tHermoCEUTICAL** tHermo : skin temperature + CEUTICAL : cure

tHermoCEUTICAL® restores a healthy skin temperature of 31 °C to help balance the skin ecosystem and create an optimal skin environment to solve problems by increasing and restoring the skin's natural strength.

The secret time to reverse your skin age

Visibly renewed result by

D°N°A° PEEL®

- ✔ Very safe solution for delicate and sensitive skin
- ✔ Early anti-aging treatment to provide elasticity for 20's & 30's

- ✔ Healing program to relieve stress by eliminating 'Inside toxins'
- ✔ Perfect and immediate therapy for the every special event

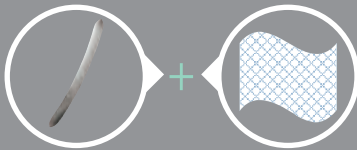

Cellcubating SYSTEM

Cellular Incubating

Intensive Cell Incubating System

Fructose Coating Technology

By this unique coating technology, Cellcubating Complex is attached to millions of Biospicules uniformly and stably!

Bio spicule

Fructose polymer : Fructan

Maximizes the transfer of active ingredients with spicules by channel formation and penetration at the same time

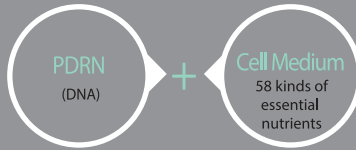

The key point of Fructose Coating Technology is **High purity biospicule**

- ◎ 1/10 of laser ray, 1/16 of MTS
- ◎ Maximize the penetration
- ◎ Minimize skin irritation with fine spicules
- ◎ Extraction of high purity biospicules through refining process (almost 0% of impurities)

Coating material **Fructan**

- ◎ Moisturizing effect similar to hyaluronic acid
- ◎ Excellent Keratinocyte proliferation effect
- ◎ Proof of effect of relieving irritation on inflammatory reactions
- ◎ Safety tests proved the nontoxic result
- ◎ Excellent adhesion of effective ingredients with stable polymer formation

Cellcubating Complex

PDRN (DNA)

Cell Medium
58 kinds of essential nutrients

Normalizes DNA

Providing nutrition and environment for cell regeneration and growth

58 kinds of Cell Medium

- ◎ A compound of nutrients necessary for DNA biosynthesis and cell regeneration

Essential nutrients for cell activities

- 11 Minerals →
- 7 Lipid, Fatty Acids →
- ← Dermal Activator
- ← 21 Amino Acids
- ← 10 Vitamins

Excellence of DNA Peel Cell Medium

Beneficial for skin	Strengthen skin barrier	Easier absorption	Safety

Fractional Prickle CoralCalcium Regentron

FCR™

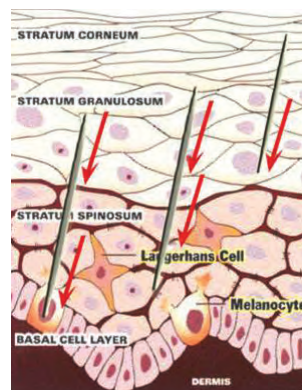

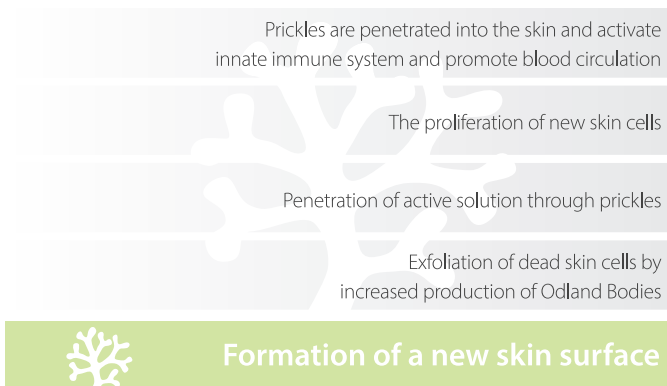

Fractional Cell Regeneration

FCR is a skin rejuvenating program that provides outstanding results such as improvement of acne, acne scars, skin tone and elasticity by activating the innate immune system, promoting blood circulation and cell proliferation. The system uses 200µm fractional prickles which contain coral calcium ingredients with rich minerals. Through this unique methodology without application of other aesthetic machines, FCR allows the skin to regain its natural beauty and emerge healthier than ever before.

Indications of FCR™

- Active acne
- Keratosis pilaris
- Stretch mark
- Large pores
- Acne scar
- Acne pigmentation

FCR Mechanism

- Stratum corneum
- Stratum granulosum
- Stratum spinosum
- Production of Odland Body & Lamella Body is occurred
- Stratum basal

CLINIC PROGRAM

Ingredients

Regen Activa 250ml

DeAC Activa 250ml

Regentron Mask 56g (1.6gx35ea)

Delicate skin and unwanted pigmentation

It is an activa of plant-based soothing ingredients that help effectively penetrate fractional prickles without irritation. There is a minute erythema reaction on the day and the next day of the procedure and downtime of 3 to 4 days, and a small amount of keratin turnover occurs after cell regeneration. It is an activa that reduces pain by 50% compared to conventional treatments.

- Aloe Barbadensis
- Rosmarinus Officinalis (Rosemary)
- Centella Asiatica
- Chamomilla Recutita (Matricaria) Flower/Leaf

Acne, large pores and thick skin.

It is an activa for oily and acne-prone skin, and it maximizes the effect of fractional prickle while helping to improve skin troubles caused by excessive sebum secretion and inflammation with AHA and BHA ingredients. Erythema and partial blackening may occur on the day and the next day of the procedure, and there may be a downtime of 4 to 5 days, and a noticeable peeling of dead skin cells may occur after cell regeneration.

- Mandelic Acid
- Citric Acid
- Salicylic Acid

200µm fractional prickle containing coral calcium ingredients and herbal extract powder helps blood circulation to the skin and stimulates cell division to remove dead skin cells and return to healthy skin.

- Salicylic Acid
- Fractional Prickle Complex
- Glycyrrhiza Glabra (Licorice)
- Niacinamide
- Arbutin
- Equisetum Arvense

FCR Home Care

Acne skin home care for Teenagers

1st week : wash face and use toner and cream to care.
From the 2nd week : Use foamgel/toner/solution/cream step by step.

Use with spotgel on the necessary area

Acne skin home care for the 20s and 30s

1st week : wash face and use toner and cream to care.
From the 2nd week : Use foamgel/toner/solution/serum/cream step by step

Use with spotgel on the necessary area

Home care for the Body Program

Spray DeAC Aciderm Toner on the treated area frequently, and use Max HydraPlus+ Cream on the treated area after taking a shower.

Vitamin C

FOxC Peel™

Peel of Neo Generation

What is FOxC Peel?

FOxC Peel is an All-In-One Premium Skin Healing Program, suitable for those who desire for skin improvement without any inconvenience such as pain, visible flakiness, and redness. Moreover, individuals who exhibit these 3 major skin concern Unwanted pigmentation, Acne and Wrinkles are able to achieve skin clarity, acne relief, and skin elasticity all the while sloughing off superficial dead skin cells.

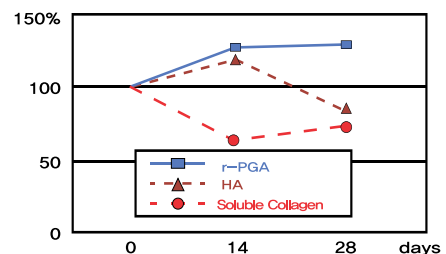

FOxC Peel Technology

1. Low-molecular polyglutamic acid

Structure: The polymer form of Glutamic acid (an α -amino acid) in which the γ -carboxyl group and the α -amino group are bonded.

Feature: A humectant that can absorb 5000 times its own weight in water, it increases the production of natural moisturizing factors.

Effect: Due to polyglutamic acid, FOxC Peel provides a gentle peel while maintaining optimal hydration during and post procedure. [Comparison test of each moisturizing factors' functionality]

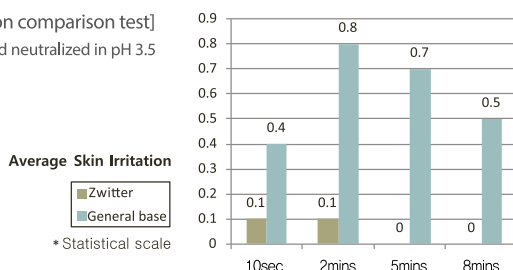

[Comparison test of each moisturizing factors' functionality]

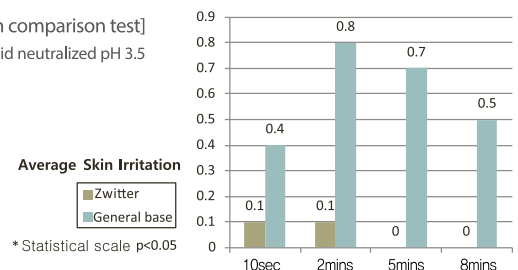

2. Zwitter System using the amphotolytic surfactants

Effect: A Special buffering system, neutralized with Natural Amino Acids, results in high product permeability, less irritation, and overall a better outcome.

[Skin irritation comparison test]
20% Lactic acid neutralized in pH 3.5

[Skin irritation comparison test]
20% Glycolic acid neutralized pH 3.5

CLINIC PROGRAM

FOxC Peel Products

Acess Peel 50ml

It helps to improve inflammatory acne and prevent troubles by suppressing keratinization of pores and excessively secreted sebum.

Melaless Peel 50ml

It gently cares for various pigmentation symptoms caused by UV rays, external stimuli, and hormones to make skin even and clear.

Ageless Peel 100ml

It is a new concept of antioxidant peeling solution that is effective for all skin types in need of regeneration, delaying aging and making the skin youthful and lively.

Bubble C 30 3g X 50

Highly concentrated brightening ingredients prevent melanism and protect the skin from stress with a powerful antioxidant effect by suppressing ROS.

Bubble Booster 200ml

Ultimately cares for various pigmentation symptoms caused by UV rays, external stimulation, and hormones, creating glowing and radiant skin.

HIGHLIGHTS

- All-In-One Skin Healing Program : Fruit fermented acid / Oxygen therapy / Vitamin C / Antioxidant / Polyphenol
- Various skin care program provision to meet every patient's need combining with (Laser / PDT / FCR / Needle / RF / Botox / Filler)
- Safe and simple use and short protocol of 10~15 minutes
- Economical treatment price

Active ingredients

1. Fruit Acid

Acess		Melaless	Ageless	
AHA	BHA	AHA	AHA	BHA
Exfoliation, Control of excessive sebum secretion		Exfoliation, Even skin tone, Epidermal regeneration	Exfoliation, Improvement of skin elasticity and vitality	

2. Berry Fermented Acid

New Normal Masque

Aqualgin Masque

INTENSIVE CARE

- ✓ NO! Diatomite or starch
- ✓ Breathable masque

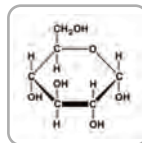

The world's first
New normal masque, Aqualgin

Aqualgin's Main ingredients

Real cooling and real hydration from within

Algin
 Improving skin tone and skin elasticity with rich minerals and vitamins C and E

Glucose
 As a natural moisturizing factor, it has water-binding properties, preventing moisture loss and helping to hydrate the skin.

Aqualgin Masque BLUE
 700g / 35g X 5ea

Cooling

Glucose, Algin, Allantoin, Dipotassium Glycyrhizate, Sorbitol, Xylitol

Aqualgin Masque PINK
 700g / 35g X 5ea

Hydration

Glucose, Algin, Hydrolyzed Collagen Panthenol, Betaine, Adenosine

8 Highlights of Aqualgin

INTENSIVE CARE

Differentiation from other masque products

	Modeling Masque
Beneficial Ingredients	Not much
Cooling	Temporary
Hydration	Not continuous
Main Ingredients	Diatomite, Starch
Residue	Untidy with a lot of hardened residue and powder left on the skin

Aqualgin Masque

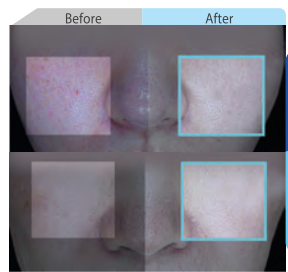

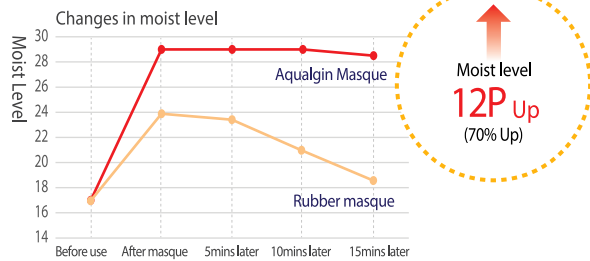

- Hydration agent and soothing agent (Glucose, Algin, Alantoin and etc)
- Breathable, keep cooling down
- Long lasting hydration
- Algin with plenty of mineral
- Remove the masque in one piece easily
The bouncy texture doesn't leave any residue

For 15minutes, real cooling and hydration

Long lasting Cryo-cooling effect

Long lasting Hydration effect

70%
11.4°C

Deep Hydration

11.4°C Down after applying masque

From face to the body all purpose masque Aqualgin

- After laser treatment
- After peeling
- Sunburn care
- Sensitive skin
- Dehydrated skin
- After plastic surgery
- After outdoor activities

How to use

Step 1: Mix 1 pouch of Aqualgin (35g) with water (50g) for 50sec

Step 2: Apply on a face evenly

Step 3: 15 mins later, remove the masque by rolling it from the forehead to the chin

Tip. How to mix better : add half a cup of water and stir for 15 seconds, then add the rest of the water to mix all

Remove & Deep

Removal of impurities and pore care are the most important steps in skincare. This is because excess sebum and clogged pores cells along with poor skin breathing, dead skin cells might cause skin troubles. However, intense stimulation and friction of cleansing can make the skin sensitive and cause other issues, so what you need is a product that clean skin without irritation.

tHermoCEUTICAL®'s Remove & Deep line is designed to create a clean skin environment by removing harmful substances on skin surfaces and pores, and to minimize moisture loss due to dead skin cells and pore care. Build a foundation for skin health with tHermoCEUTICAL® products that neatly remove impurities and harmful substances without causing skin stress even in daily cleansing.

Prime Cleansing Masque

1000g
100ml

It is a unique hydro-based, gel-type removing cleanser that does not contain oil, so it can be used without irritation on sensitive skin and removes makeup and impurities neatly without any residual feeling.

INGREDIENTS Dipotassium Glycyrrhizate, Panthenol, Lentinus Edodes Mycelium Extract, Allantoin, Glycerin

Post Enzyme Gentle Cleanser

40g

A daily deep cleanser containing postbiotics improves the imbalance of microbiome in the skin, and gently removes dead skin cells and impurities in the deep pores on the skin surface to make your skin healthy and clean.

INGREDIENTS Bromelain, Papain, Spirulina Platensis Extract, Lactobacillus Ferment, Copper Tripeptide-1, Daucus Carota Sativa (Carrot) Root Extract

Max Hydro Gel+

250ml

With a total 12% of AHAs and BHAs, it exfoliates deep under the skin to remove dead skin cells and excess oil while maintaining hydration.

INGREDIENTS Allantoin, Mandelic Acid, Citric Acid, Glycolic Acid, Galactoarabinan

DNA

D Booster

20ml

D Booster enhances moisture levels and restores balance within the skin by containing a moisturizing factor for excellent moisture longevity and skin protection

INGREDIENTS Sodium Hyaluronate, Spirulina Maxima Extract, Centella Asiatica Extract

N Reverter

30g

N Reverter works to ease stress and soothe skin irritation with a formulation of soothing ingredients and Sodium DNA to invoke healthy and resilient skin which is more protected from external factors.

INGREDIENTS Xylitol, Sodium DNA, Copper Tripeptide-1, Centella Asiatica Extract

EYECON NECK

Eye & Lip CREAM

15ml

Eye & Lip CREAM provides instant lifting effects and helps improve fine wrinkles by containing Acetyl Hexapeptide-1 and Lactobacillus Ferment.

INGREDIENTS Acetyl Hexapeptide-1, Sodium DNA, Lactobacillus Ferment, Adenosine, Arginine

EXO Regentron

Skin aging is a gradual process that is evidenced as a series of disorders in skin look and texture. At tHermoCEUTICAL® we develop anti-aging solutions to correct the visible signs of aging and to prevent premature skin aging.

Our anti-aging formulas include innovative and newest version of active ingredients that synergistically act against the main signs of aging in each of the grades of aging.

There are 5 signs of skin aging that appear in the form of a loss of luminosity, wrinkles, redness, dehydration, and a lack of skin density. We have designed specific anti-aging treatments that provide a preventive and reverted aging manifestation.

EXO Regentron Foamgel 1000g / 100ml

Based with Centifolia Rose Water, it cleans impurities without irritation and prevents moisture loss containing rich and soft bubbles. Recommended for dry and mature skin.

INGREDIENTS Allantoin, Galactoarabinan, Lentinus Edodes Mycelium Extract, Lactobacillus Ferment, Glycerin, Tremella Fuciformis Sporocarp Extract

EXO Regentron Toner 1000g / 100ml

The advanced technology of AquaBio quickly replenishes and balances the skin. This facial toner helps condition and prep skin for proper moisture absorption.

INGREDIENTS Galactoarabinan, Alteromonas Ferment Extract, Lactobacillus Ferment, Centella Asiatica Leaf Extract, Betaine

EXO Regentron Serum 100ml / 30ml

Anti-aging and regenerating serum with RVT complex calms the damaged skin improving the depth of wrinkles and restoring the loss of firmness. Combats the signs of fatigue and prevents the appearance of wrinkles.

INGREDIENTS RVT complex, Lactobacillus Ferment, Alteromonas Ferment Extract, Allantoin, Glycerin, Adenosine

EXO Regentron Cream 250ml / 50ml

Formulated with Sodium DNA and Bakuchiol, EXO Regentron Cream strengthens skin to help shield against stress triggers and rejuvenates damaged skin. Exosome reverts to youthful skin by improving signs of aging.

INGREDIENTS RVT complex, Panthenol, Sodium DNA, Myristoyl/Palmitoyl Oxostearamide/Arachamide MEA, Allantoin

Regentron Mistic Solution 80ml

You can use this essence-type mist spray throughout the day, even over makeup, for all-day hydration. It instantly soothes the skin while Rosa Centifolia Flower Water comforts and revives the skin.

INGREDIENTS RVT complex, Galactoarabinan, Soluble Proteoglycan, Lactobacillus Ferment, Allantoin, Glycerin

Prime EXO Ampoule 100ml / 20ml

Formulated with the concentration of Exosome, this intense treatment ampoule enhances skin immunity and repairs damaged DNA, even defends against free radicals with antioxidant ingredients.

INGREDIENTS Lactobacillus Ferment, Copper Tripeptide-1, Galactoarabinan, Sodium Hyaluronate, Adenosine

EXO Cicaderm Cream 15ml

Topical cream that forms a protective film on damaged skin by the procedure, preventing attacks from external harmful elements and moisture loss, helping skin regeneration.

INGREDIENTS Lactobacillus Ferment, Centella Asiatica Leaf Extract, Copper Tripeptide-1, Allium Cepa (Onion) Bulb Extract

EXO Regentron Eyecontour 100ml

Containing Adenosine and antioxidant ingredients, improving and reducing signs of aging around the eyes and creating clear eyes and vibrant skin.

INGREDIENTS Adenosine, Lactobacillus Ferment, Sodium Hyaluronate, Maltodextrin

DeAC Aciderm

Oily acne-prone skins show overproduction of oil, dilated pores, thickened surface, uneven texture and a higher susceptibility to the appearance of imperfections. Their characteristics require specific cosmetic products that help regulate the amount of oil and glares, prevent clogged pores and bacterial proliferation, and improve skin texture and renewal.

tHermoCEUTICAL® has a full range of solutions to treat oily acne-prone skins.

Products developed together with specialist dermatologists and formulated with last-generation oil-regulating, exfoliating, keratolytic and antimicrobial active ingredients.

DeAC Aciderm Foamgel 1000g
100ml

Purifying, refining & keratolytic cleansing facial foam for oily and acne-prone skin. Enhances undocking of pores and prevents imperfections.

INGREDIENTS CAC complex, Betaine, Galactoarabinan, Allantoin, Tremella Fuciformis Sporocarp Extract

DeAC Aciderm Toner 1000g
100ml

Balancing, refreshing toner for oily and acne-prone skin. Reduces excess oil, and helps to tighten pores.

INGREDIENTS CAC complex, Betaine, Galactoarabinan, Xylitol, Centella Asiatica Extract

DeAC Aciderm Serum 100ml
30ml

Retexturizing and hydrating serum for oily, acne-prone, seborrheic, and blemished skin. Helps balance oil production leaving the skin soft and normalizing sebum levels for the long term.

INGREDIENTS CAC complex, Alteromonas Ferment Extract, Galactoarabinan, Sodium Hyaluronate, Glycerin, Tremella Fuciformis Sporocarp Extract

DeAC Aciderm Cream 250ml
50ml

Cream for daily use designed for optimal control of skin types oily to acne and seborrhea. The synergistic association of CAC complex and concentrated Niacinamide simultaneously stimulates exfoliation of the skin, reduces sebum production, and controls bacterial proliferation.

INGREDIENTS CAC complex, Niacinamide, Beta-Sitosterol, Alteromonas Ferment Extract, Glycerin

DeAC Aciderm Solution 15ml

Banish breakouts and achieve smoother skin texture with this powerful solution formulated for breakout-prone skin. Reduces the formation of new acne lesions.

INGREDIENTS CAC complex, Pyridoxine HCl, Beta-Sitosterol, Alteromonas Ferment Extract, Glycerin

DeAC Aciderm Spotgel 15ml

Gel for local use with Antibacterial, clarifying, and regenerating active ingredients. Inhibits 5- α reductase, prevents pore clogging, and reduces breakouts quickly, normalizing excess sebum.

INGREDIENTS Sodium Salicylate, Mandelic Acid, Pyridoxine HCl, Bakuchiol, Allantoin, Glycerin, Niacinamide

DeAC Aciderm Masque 250g

The wash-off mask helps calm, purify, and refresh the skin while pulling out sebum, detoxifying skin, and contributing to balance sebum production.

INGREDIENTS CAC complex, Hydroxyethyl Urea, Beta-Sitosterol, Allantoin, Glycerin

MELA Brightening

Skin spots are a common problem, triggered by multiple factors, and their characteristics and treatment vary according to the type of spot, age and type of skin.

In tHermoCEUTICAL® we are specialists in skin depigmentation and brightening tone. Over 15 years constantly seeking innovation in this field have allowed us to offer consolidated, recognized depigmentation solutions.

Discover tHermoCEUTICAL® depigmentation solutions and treatments, solutions that help maintain the spot under control and prevent the appearance of new spots.

Enzyme Snow Bubble Cleanser 100ml

It is a mild bubble cleansing foam containing plant-based amino acids and enzymes, which minimizes skin friction. Specially designed for sensitive and pigmented skin.

INGREDIENTS Galactoarabinan, Papain, Niacinamide, Tremella Fuciformis Sporocarp Extract, Glycerin

MELA Brightening Serum 30ml

DDC complex inhibits melanin production and balances the appearance of uneven pigmentation. It protects against pollution-induced dark spots, improves melasma, and prevents their re-appearance.

INGREDIENTS DDC complex, Aminopropyl Kojyl Phosphate, Glycerin, Niacinamide

MELA Brightening Cream 250ml / 50ml

Day cream for hyperpigmentation inhibits the activity of tyrosinase and not only clarifies the skin tone with a tone-up effect but also restores the skin's natural luminosity and glooming. Specially designed for dull and irregular skin.

INGREDIENTS Niacinamide, Aminopropyl Kojyl Phosphate, Hexylresorcinol, Bakuchiol, Betaine, Calamine

MELA Hydrating Masque 250ml

Absorbing masque helps rescue stressed skin as an ultimate remedy for dulling, dry, and lackluster. Powerful concentrated vitamins help enhance barrier properties and moisturize skin while increasing resilience.

INGREDIENTS DDC complex, Aminopropyl Kojyl Phosphate, Glycerin, Allantoin

MELA Tyroderm Cream 15ml

Advanced Pigment Corrector targets hyperpigmentation areas caused by accumulated sun exposure, hormonal shifts, and the natural aging process. It alleviates dead skin cells and improves skin radiance to reduce the appearance of discoloration.

INGREDIENTS Niacinamide, Aminopropyl Kojyl Phosphate, Tranexamic Acid, Hexylresorcinol, Glycerin

Hydra

Moisture is the driving force of cell function, an essential nutrient for the skin to perform its original function, and at the same time, it is a solvent that regulates energy and osmotic balance. It is also a basic factor in maintaining skin firmness, and lack of moisture in the skin acts as a factor that causes secondary problems.

The tHERMOCEUTICAL® Hydra line consists of step-by-step products to improve moisture binding and retention within the skin, as well as simple hydration. It activates aquaporin and promotes the production of filaggrin to ensure a smooth supply of moisture in the skin. In addition, intercellular lipids and lipid membranes prevent losing moisture and strengthen the skin barrier.

Hydra Bubble Toner

100ml

Microbubble toner refreshes your skin while filling the stratum corneum with moisture. Replenishes moisture instantly and preps for the next step.

INGREDIENTS Betaine, Lentinus Edodes Mycelium Extract, Tremella Fuciformis Sporocarp Extract, Glyceryl Glucoside, Allantoin, Glycerin

Max HydraPlus+ Serum

100ml
30ml

Max HydraPlus+ Serum provides hydration in the deeper layers of the skin and maximizes moisture retention while boosting the generation of aquaporin and filaggrin.

INGREDIENTS EGG complex, Galactoarabinan, Allantoin, Sodium Hyaluronate, Xylitol

Max HydraPlus+ Cream

250ml
50ml

Max HydraPlus+ Cream contains essential ingredients forming lipids to prevent moisture loss. Its application reinforces a healthy skin barrier that protects from external aggressions.

INGREDIENTS Allantoin, Lentinus Edodes Mycelium Extract, Galactoarabinan, Ceramide NP, Glycerin

Max Hydro² Gel Masque

500ml

Soothing and moisturizing gel masque to protect skin with deep and persisting hydration.

INGREDIENTS Centella Asiatica Extract, Galactoarabinan, Dipotassium Glycyrrhizate, Allantoin, Glycerin

RegeniC Mask

50ml X 5ea

Containing a 50ml ampoule, RegeniC Mask is a sheet mask that hydrates, soothes, and revitalizes the skin, and it's designed for the face and neck to calm wounded skin after treatment.

INGREDIENTS Natto Gum, Wheat Amino Acids, Camellia Sinensis Leaf Extract, Rosa Centifolia Flower Water, Morus Alba Bark Extract

Photoaging

Over-exposure to sunlight can cause both short-term and long-term skin damage. Blocking harmful factors and providing immediate solutions are essential factors for healthy skin.

tHermoCEUTICAL®'s innovative ingredients provides complete sun protection against the various types of visible-rays and invisible-rays reaching the skin. It restores intrinsic skin strength by reinforcing the natural defense system and optimizing skin condition with antioxidant function against free radicals.
